

## ***ASCC Staff Activities at ACI Convention in Denver***

We know that you will be busy if you are going to the ACI Convention in Denver from November 8 to 12, 2015. We will be there too! We will be busy with session presentations, making PowerPoint presentations to a few committees, and of course, attending committee meetings. ASCC is looking to provide contractor input to committees by getting on the agenda to present short, 10 to 20 minute talks on topics of concern and interest to ASCC concrete contractors. We are cooperating with Ron Kozikowski of North Starr Concrete Consulting in making presentations to ACI 306 Cold Weather and ACI 308 Curing. Let Ward, Todd, Bev or I know if you have a topic or concern that we can help address at one of your committee meetings. With active ASCC concrete contractor involvement we can influence change in ACI documents.

### **Bruce Suprenant**

- Construction Liaison Committee (CLC): Sunday – 8:00 to 10:30 am
- 302 Floors and Slabs: Monday – 8:30 to 1:00 pm
